

Introducing Verizon IP Business Bundle

Are you overpaying for the technology your business uses to communicate? Outdated equipment, unreliable service and lack of support can lead to sharply reduced profits, and leave you with less time to devote to your business. The IP Business Bundle from Verizon is the perfect solution to help upgrade your business performance. For one low monthly price, we'll package your voice, data, Internet and equipment needs into a solution that fits your business — and your budget.

IP Business Bundle

IP Business Bundle is designed for small and medium-sized businesses that want a cost-effective way to carry voice and data over the same IP network. This service works with any type of existing key or PBX system and does not require additional investment in costly infrastructure or desktop equipment. Verizon has teamed with Adtran Custom Extended Services (ACES) to deliver IP Business Bundle in a complete turnkey solution. This includes the design, installation and ongoing maintenance.

Components	4 Lines	8 Lines	12 Lines	16 Lines	24 Lines
Internet Dedicated Access	Single T1 (1.5M)	Single T1 (1.5M)	Single T1 (1.5M)	Single T1 (1.5M)	Single T1 (1.5M)
